

Community Child Protection Exchange
ICASA Roadmap – full length, includes posters
www.childprotectionforum.org
admin@childprotectionforum.org

Use this roadmap to navigate ICASA and access the most relevant sessions, posters and other events concerning children, child protection, community action, child protection and health systems strengthening and HIV and AIDS.

Please note that there are many more sessions not listed here which relate to Prevention of Mother to Child Transmission of HIV (PMTCT) or vertical transmission. Only those which reflect the key words below have been included. For the most part this excludes sessions of a clinical nature. Sessions and posters focusing on HIV and AIDS issues but which potentially have lessons for the child protection community have also been included.

Key words and phrases include: child participation, child protection, child and adolescent rights, children affected by HIV and AIDS, children with disabilities, community action, community-based, community dialogues, discrimination, family, informal, mental health, multi-sectoral, new technologies, older people, orphans and vulnerable children, psychosocial support, social protection, stigma, systems strengthening, violence against children, youth.

Not all information was available when compiling this roadmap. Visit the conference site's programme for further updates and changes
www.icasa2013southafrica.org

Visit <http://childprotectionforum.org/2013/10/icasa-2013-conference-blog/> for UNICEF's compendium of ICASA 2013 abstracts and to subscribe to the Community Child Protection Exchange's ICASA Blog. Join us on Facebook and LinkedIn and follow us on Twitter @protectkids2013. We'll be using #childprotection and #icasa during the conference.
